### Where *to* Stay

One of our favorite lodging places to stay, not only in Half Moon Bay, but on our Northern California coast, is the **Beach House Hotel**. We dropped anchor here about 19 years ago when this upscale boutique property overlooking Pillar Point Harbor first opened as the Beach House Inn. We've returned a few times and our latest stay was equally memorable as a recent refurbishing phase has actually enhanced the luxurious feel of the hotel. Friendly and professional staff, beautiful junior suite accommodations and stunning views continue to stand out as hallmarks. Complimentary features include delightful continental breakfasts; morning newspapers; wifi; parking; and fitness center. As extra plusses all of their fifty-four suites include: a fireplace; microwave oven; refrigerator; two flat panel high definition televisions; king size luxurious beds; and very spacious bathrooms. Whether you are considering a romantic, relaxing or special occasion getaway, family reunion, or a business meeting the **Beach House Hotel** is a wonderful option.
